**UPROSPER SERVICES GROUP ADDS TRUST SERVICES TO THEIR LINE OF PRODUCT OFFERINGS FOR THEIR CREDIT UNION MEMBERS AND COMMUNITIES**

Cheyenne, Wyoming – October 15, 2015: UProsper Services Group, LLC continues to add new products and services with Trust Services at UProsper\* being the latest addition. In partnership with MEMBERS Trust Company, UProsper can now offer trust services to members of the Cheyenne and Casper communities, as well as the members of WyHy and Western Vista credit unions.

When asked why UProsper is partnering with MEMBERS Trust Company, Bill Willingham, President/CEO of WyHy, said, “As we continue to add value to the products and services offered under the UProsper brand, we knew our members and communities would greatly benefit from trust services, especially when someone is looking to establish a strong and proactive financial path now and into their future.”

Western Vista’s CEO, John Balsler, adds, “Given MEMBERS Trust Company has a rich legacy of serving credit unions around the nation, it was a very natural choice to partner with them. They understand the deep relationships we build with our members and will work in their best interests, developing financial solutions for their financial protection and security.”

Owned and managed by not-for-profit credit unions and with more than \$1.8 billion assets under management, MEMBERS Trust Company has been providing trust and investment services to credit union members and their families since 1987. Credit unions across America pooled their resources to form MEMBERS Trust Company with the mission of creating a professional trust and investment company that would exist for the benefit of members and not individual stockholders. Management and staff of MEMBERS Trust Company are charged with a corporate mandate from their credit union owners to look after and protect the members’ best interests.
